RAIHAN RAMADHAN SETIAWAN

IT Infrastructure & Network Engineer

raihanrtwn@gmail.com | +62 821-1289-8003 | raihansetiawan | Jakarta - Indonesia

SUMMARY

Telecommunications Engineering graduate with a strong foundation in network infrastructure, IT security, and virtualization. Skilled in network design and troubleshooting using Cisco Packet Tracer, GNS3, and Wireshark, with hands-on experience in Linux server administration, VoIP, and Proxmox virtualization. Proficient in Docker-based containerization and cloud computing, with working knowledge of vulnerability assessment, risk assessment, and security documentation to support secure infrastructure. Complemented by programming skills in Python and JavaScript, and experience with IoT systems. Passionate about IT infrastructure and network engineering, with a strong interest in building reliable, secure, and scalable technology solutions.

SKILLS

- **Networking** : Cisco Packet Tracer • GNS3 • NS-3 • Routing & Switching • TCP/IP • VLAN • DHCP • DNS • OSPF • RIP • VoIP (Asterisk PBX) • Wireshark
- **Systems & Infrastructure :** Linux (Ubuntu, Debian) • Windows • Proxmox VE • Docker • Docker Compose • Oracle VM VirtualBox • VPS • NAS • OpenVPN • Cloudflare • Virtualization
- **Programming & Development :** Python • PHP • JavaScript • Flutter • HTML • CSS • MySQL • Firebase • REST API • Git • Vercel
- **Cybersecurity :** Vulnerability Assessment • Penetration Testing • OWASP ZAP • Kali Linux • Risk Assessment • Information Security Analysis • Security Documentation
- **Cloud, AI & IoT :** Cloud Computing • Internet of Things (IoT) • ESP8266 • Arduino IDE • Blynk IoT • Generative AI • Machine Learning • Deep Learning
- **Tools & Platforms :** MATLAB • Postman • Android Studio • Figma

WORK EXPERIENCE

Practicum Assistant, Cyber Physical Systems Laboratory at Telkom University — **Dec 2023 - Jun 2026**

- Assisted laboratory sessions in networking, Linux, IoT, VoIP, and network simulation courses.
- Managed and maintained Linux-based servers and virtualization platforms supporting laboratory activities.
- Configured network services and performed troubleshooting to ensure stable laboratory operations.
- Developed practical modules and provided technical guidance for undergraduate students.
- Collaborated with laboratory staff to maintain infrastructure and improve learning efficiency.

Cyber Security Intern, Ministry of Communication and Digital Affairs — **Jun 2025 - Aug 2025**

- Performed vulnerability assessments on five government websites.
- Analyzed security risks and documented assessment findings.
- Developed mitigation recommendations to improve web application security.
- Prepared technical reports to support remediation activities.

LEADERSHIP EXPERIENCE

Vice Internal Coordinator, ***Cyber Physical Systems Laboratory at Telkom University*** **Jun 2025 - Jun 2026**

- Developed and implemented internal laboratory regulations to improve organizational governance.
- Collaborated with laboratory coordinators and members to support strategic and operational objectives.
- Coordinated internal operations across the Practicum and Research divisions to support laboratory activities.
- Managed cross-divisional coordination to ensure effective communication and operational efficiency.

ORGANIZATION EXPERIENCE

Logistics Staff, Telecommunication Engineering Student Association **Mar 2024 - Aug 2024**

- Supported the preparation and distribution of logistics for departmental events and student activities.
- Coordinated with committee members to ensure the availability and timely delivery of required equipment and materials.
- Assisted in inventory management and logistical planning to support successful event execution.

Public Relations Staff, Batavia on Telkom **Sep 2022 - Mar 2023**

- Assisted in managing communication and engagement with prospective members and external audiences.
- Supported promotional activities through social media and public outreach initiatives.
- Collaborated with team members to organize organizational events and strengthen community engagement.

TECHNICAL PROJECTS

Mentimeter, Presentation Mobile Application

- Developed a mobile-based interactive presentation application that allows users to create, join, and respond to presentation sessions.
- Implemented key features such as presentation management, audience participation, question navigation, and user authentication.
- Integrated backend services and database functionality to support real-time data handling and user interaction.

Proxmox Virtualization Infrastructure

- Installed and configured Proxmox VE on a physical server from initial deployment to production-ready operation.
- Configured bridge networking to enable public IP connectivity for virtual machines and containerized services.
- Server maintenance to ensure stable operation.

Uniflow, Water Quality Monitoring Application

- Developed a mobile application for real-time water quality monitoring as part of an IoT-based thesis project.
- Implemented features for displaying sensor data, historical records, water quality status, filtering by date and location, and CSV data export.
- Designed the application to support environmental monitoring using parameters such as pH, temperature, and other water quality indicators.

Docker Cloud Computing

- Containerized a web application using Docker to simplify deployment and environment consistency.
- Configured Docker Compose for multi-container application orchestration.
- Managed container networking and persistent storage for application services.

CERTIFICATES

- Cyber Security Course Level Basic, ITBOX **Sep 2025**
- Belajar Dasar-Dasar DevOps, Dicoding Indonesia **Mar 2025**
- Belajar Dasar Pemrograman JavaScript, Dicoding Indonesia **Aug 2025**
- Belajar Dasar AI, Dicoding Indonesia **Aug 2025**

EDUCATION

Bachelor of Engineering **Sep 2022 - Present**

Telkom University, Bandung-West Java

- Major in Telecommunication Engineering.
- Final GPA: 3.36 / 4.00

Senior High School **July 2019 - May 2022**

SMAN 30, Jakarta, DKI Jakarta

- Final GPA: 87,32

LANGUAGES

- Indonesian – Native
- English – Intermediate
